COACHES BOX

Sarah:
 Man what a day!!!! The hound dogs were on fire today!! They continued to bond and support each other and superb racing to match. I got a bit emotional when race after race the swimmers were smashing out PB's and solid swims and then coming back with THE hugest smiles on their faces. This is what it is all about not winning or losing but having the feeling inside you that you personally have given your best!

Stan:
 Another tough day in the office,(for the others) Swimmers again showing why were number one and the team to beat, aggressive off the blocks and attacking the walls on the turns and finishes. I'm amazed at how all athletes continue to stand up and take ownership of their races and performances.

Team Atmosphere is humming along getting tighter and stronger every session. All athletes are wanting to be a part of the success by putting their hands up for bigger races to get amongst it and do all they can for their team, feeding of PBs or big winning swims and each other has lead to the HOUND DOGS winning the Taupo swim leagux part of the series!!!!
